BRETT SNYDER — Frontend Developer | Design Engineer

Queen Creek, AZ • 602-561-5771 • info@brettsnyder.me • brettsnyder.me • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Frontend developer and design engineer with 15+ years across enterprise marketing websites, e-commerce, and recent SaaS work. Builds token-based design systems with reusable components in HTML/CSS, Shopify/Liquid, and Next.js. At Imagine Learning, managed 13 WordPress sites, led two Shopify migrations, and cut landing-page production time by 40% across more than 50 pages. Recently launched CyWire and rebuilt TopWebWorks with Next.js, React, and TypeScript.

CORE COMPETENCIES

Frontend: React • Next.js • TypeScript • JavaScript • HTML • CSS • Tailwind CSS • Responsive Design
CMS & Commerce: WordPress • Shopify Plus • Liquid • Headless WordPress • PHP
Design & Growth: Figma • UI/UX Design • Design Systems • Landing Pages • Accessibility • A/B Testing • CRO • SEO
Analytics & Delivery: GA4 • Google Tag Manager • Search Console • Core Web Vitals • Git/GitHub • Vercel • Supabase

PROFESSIONAL EXPERIENCE

Frontend Developer & Founder — Cosaint, Inc.

November 2025 – Present | Queen Creek, AZ

- **Built and launched CyWire.com in three months**, taking a B2B AI platform from concept to production with Next.js, React, TypeScript, Tailwind CSS, Supabase, and Vercel. Delivered a visual builder, knowledge base, and team workspaces.
- **Designed CyWire's Master Prompt system** using reusable JSON blueprints, defined variables, constraints, and output schemas to produce validated, machine-readable AI output across models.
- **Built three design systems for TopWebWorks**: a Tailwind system for its Next.js marketing site and two reusable Next.js component systems for service and informational client sites, supporting fast custom prototypes.
- **Lead client website, Shopify store, and growth operations** covering CRM lead capture, automated email and SMS follow-up, landing pages, SEO, analytics, and ongoing performance reporting.

Marketing Web Developer

Imagine Learning (formerly Weld North Education / Glynlyon Inc.) | March 2022 – October 2025 | Arizona (Remote)

- **Built Master Blocks, a token-based HTML/CSS design system** that reduced landing-page production time by 40% across more than 50 conversion-focused pages and gave marketing teams reusable, CMS-compatible components.
- **Managed 13 WordPress sites on Pantheon and one custom CMS property**, building accessible, responsive pages for enterprise campaigns.
- **Led two Shopify migrations with one reusable Liquid design system** across two theme frameworks, using brand tokens and configurable sections to replace paid apps and give marketers page controls.
- **Turned Figma designs into accessible web pages and responsive emails**, using A/B testing and heatmap data to guide improvements; mentored 12+ team members and improved design-to-development handoffs.

UI/UX Designer/Developer

Imagine Learning | April 2019 – March 2022 | Chandler, AZ (Hybrid)

- Led UI/UX design and frontend development for marketing and product web experiences, maintained WordPress properties, and created high-fidelity Figma designs and functional HTML prototypes.
- Built a responsive Monarch Catalog HTML prototype with working interactions for engineering handoff and collaborated with cross-functional teams to refine user flows and usability.

Senior Designer

Imagine Learning | October 2016 – April 2019 | Chandler, AZ

- Established enterprise WordPress management practices and created responsive landing pages, HTML emails, and campaign assets.
- Built a modular HTML email design system with reusable, CRM-ready components that became the company standard; applied A/B testing insights to improve conversions.

EARLIER EXPERIENCE

Front-end Developer/Designer | 2006 – 2016
Completed two separate engagements with Pearson Online Learning: an earlier contract building custom CMS sites for multiple departments, followed later by a full-time Web Developer role focused on responsive HTML emails and website-page debugging. Additional enterprise work included Rio Salado College (portal redesign) and Net Media Group (A/B testing and conversion optimization).

EDUCATION

Brigham Young University — Graphic Design Studies

Brigham Young University–Idaho — Associate Degree in Fine Art

Ensign College — Professional Development Coursework: Python, JavaScript, Web Development
