

BRETT SNYDER — Design Engineer | Product-Focused Frontend Developer

Queen Creek, AZ • 602-561-5771 • info@brettsnyder.me • brettsnyder.me • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Product-focused frontend developer with 15+ years of experience across SaaS products, enterprise marketing websites, e-commerce, and conversion-focused landing pages. Combines UI/UX design with hands-on development using React, Next.js, TypeScript, Shopify/Liquid, WordPress, and modern HTML, CSS, and JavaScript. Recently launched the CyWire AI SaaS platform and founded TopWebWorks as a productized web-services business, following extensive enterprise web work at Imagine Learning.

CORE COMPETENCIES

Paid Media: Google Ads • Meta Ads • Google Business Profile • CRM Automation

Analytics: Google Analytics (GA4) • Google Tag Manager • Search Console • Lighthouse • Hotjar • Crazy Egg • Shopify Analytics • CRM Analytics

Design/UX: UI/UX Design • Figma • Wireframing • Functional Web Prototyping • Design Systems

Delivery & Quality: Git/GitHub • Supabase • Vercel • Cross-browser Testing • WCAG Accessibility • Core Web Vitals & Performance

PROFESSIONAL EXPERIENCE

Product & Frontend Developer — Cosaint, Inc.

November 2025 – Present | Queen Creek, AZ

- **Built and launched CyWire.com in three months**, taking the B2B AI platform from concept to production while refining its core engine through three major architectural versions to achieve the intended product vision. Developed it with Next.js, React, TypeScript, Tailwind CSS, Supabase, and Vercel.
- **Designed CyWire's model-agnostic Master Prompt system:** reusable JSON blueprints with defined variables, instructions, constraints, and output schemas that guide AI-powered features to produce consistent, validated, machine-readable output across LLMs and platforms.
- **Delivered the platform's product ecosystem**, including a no-code visual builder, 170+ free global prompts, community marketplace, document-backed knowledge base supporting PDF, Word, and Excel uploads, Pro+ Labs Chat Prompt Generator, authentication, tier-based access control, scoped team workspaces, dashboards, and leaderboards.
- **Founded and built TopWebWorks, Cosaint's productized web-services division.** Developed a sales model centered on free, functional website prototypes, custom Next.js and Shopify builds, and three-tier recurring service plans.
- **Lead end-to-end web operations for TopWebWorks clients**, including custom websites, hosting and maintenance, and CRM workflows that capture live-chat and contact-form inquiries in a centralized pipeline, trigger instant lead notifications, and automate email/SMS confirmations, follow-up, estimate and booking requests, and post-job reviews through a dedicated business texting number.
- **Manage client growth programs** across conversion-focused landing pages, blog and social content, Google Business posts, email campaigns, local SEO tracking, SEO/AEO/GEO implementation, paid advertising, analytics, monthly performance reporting, and strategy calls.

Imagine Learning (formerly Weld North Education / Glynlyon Inc.)

October 2016 – October 2025 | 9 Years — Role Progression in Marketing & Frontend Development

Marketing Web Developer

March 2022 – October 2025 | Arizona (Remote)

- **Managed enterprise marketing web infrastructure** spanning 13 WordPress sites on Pantheon, building accessible, responsive pages for enterprise marketing campaigns.
- **Planned and led migrations of three e-commerce properties to Shopify**, replacing paid apps with custom Liquid sections and configurable Shopify schemas.
- **Created a reusable HTML5 Master Blocks system** that reduced landing-page production time by 40% across more than 50 conversion-focused pages.
- **Accelerated campaign execution** by translating Figma designs into accessible markup, coding responsive HTML emails, and optimizing pages with A/B testing and heatmap data; mentored 12+ team members and streamlined design-to-development handoffs.

UI/UX Designer/Developer

April 2019 – March 2022 | Chandler, AZ (Hybrid)

- Led UI/UX design and frontend development for marketing and product web experiences, maintained WordPress sites on Pantheon, and created high-fidelity Figma designs and functional HTML prototypes.
- Built a responsive Monarch Catalog HTML prototype with working interactions for engineering handoff and collaborated with cross-functional teams to refine user flows and usability.

Senior Designer

October 2016 – April 2019 | Chandler, AZ

- Established enterprise WordPress management practices on Pantheon and created responsive landing pages, HTML emails, and campaign assets.
- Created a reusable HTML email system with CRM-ready templates that became the company standard; managed the design-to-code pipeline and applied A/B testing insights to improve conversions.

EARLIER EXPERIENCE

Front-end Developer/Designer | 2006 – 2016

Rehired by Pearson Online Learning for a second contract after initially developing and repairing custom CMS websites; returned to build responsive email systems and resolve website issues. Additional enterprise work included Rio Salado College (portal redesign) and Net Media Group (A/B testing and conversion optimization). Earlier graphic design roles at Franklin Covey, Nu Skin, and Studeo Interactive Direct before transitioning to web development.

EDUCATION

Brigham Young University — Graphic Design Studies

Brigham Young University–Idaho — Associate Degree in Fine Art

Ensign College — Professional Development Coursework: Python, JavaScript, Web Development
